TECHNICAL SKILLS

Programming Languages: C, C++, Javascript, TypeScript, Python

Full Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Frontend and Backend: React.js, HTML, CSS, TailwindCSS, RESTful API, Redux Toolkit, React Query, Context, Responsive UI, Node.js, Express.js, FastApi, JWT, Multer, Cloudinary, Cheerio, Framer motion,

Databases: MySQL, MongoDB, Appwrite

Technologies/Frameworks: Linux, Git, GitHub, Jest, Vercel/Render, Docker, CI/CD basics, LLMs, Gen AI, LangChain

Core: DSA, DBMS, Operating System and Networking, System Design basics, Performance Optimization, Cyber security and Forensics basics

SUMMARY

- Recent Computer Science graduate and **MERN Stack** Developer with hands-on experience building full-stack applications using React.js, Node.js, Express.js, and MongoDB/MySQL. Skilled in designing RESTful APIs, integrating authentication and media handling, and shipping performance-optimized, production-ready web apps.

EXPERIENCE

Full stack developer intern | Cognifyz Technology

Feb 2026 – March 2026

Full stack Developer | HTML, CSS, JavaScript, MERN

- Engineered and deployed multiple full-stack web applications using the MERN stack and MySQL, integrating scalable frontend interfaces with robust backend services.
- Designed and implemented RESTful APIs using Node.js and Express, enabling efficient data handling and reducing response latency by **20%**.

Frontend developer intern | Saiket Systems

Nov 2025 – Dec 2025

Front End Developer | HTML, CSS, JavaScript, React.js

- Developed **10+** responsive and reusable UI components using HTML, CSS, JavaScript, and React.js, improving UI consistency and development efficiency.

PROJECTS

DeepGuard – DEEPFAKE AI DETECTION SYSTEM | React.js, Node.js, Express.js, FastApi, ML, CNN, MongoDB, RESTful API

- Developed a full-stack deepfake detection platform for image and video analysis, leveraging CNN-based models, heuristic scoring, and temporal consistency techniques to improve prediction reliability
- Architected a dual-backend system using FastAPI for ML inference and Express.js for handling media uploads API routing. Achieving **90%** detection accuracy on test datasets while ensuring robustness across varied input quality

BlackHole – SEARCH ENGINE with CRAWLER | React.js, Node.js, Express.js, MongoDB, Cheerio, FramerMotion, TailwindCSS

- Engineered a Full-stack custom search engine capable of crawling and extracting data and metadata from web pages.
- Designed a pipeline to validate and enhance data reliability by integrating the VirusTotal API for link and content verification.

SOCIAL MEDIA CLONE | React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary, Multer, LocalStorage

- Built a Full stack Optimized social platform supporting User Authentication and Authorization, profile management, creating posts with or without media, commenting on others posts, deleting own posts and more with efficient data handling and dynamic content rendering.

EDUCATION

Bachelor of Technology in Computer Science and Technology (B.Tech)

2022 – 2026

ITM University Gwalior (Tier-2)

– **7.0 CGPA**

CERTIFICATES / EXTRACURRICULAR

- IBM Developer Skills Network / Cognitive Class** Certified in Analyzing Big Data in R using Apache Spark, covering distributed data processing, analytics, and big data fundamentals. [Certificate](#)
- Tata Crucible Campus Quiz:** Qualified **Prelims Level 1**, demonstrating strong aptitude, business awareness, and analytical thinking. [Certificate](#)
- Infosys Springboard:** Completed certification in Digital Forensics Using Kali Linux, gaining practical knowledge of forensic investigation techniques and security analysis. [Certificate](#)
